

TYPE APPROVAL

Description

CSA Group Leyland provides many kinds of type approval testing in order to meet the required standards for vehicles, including European FMVSS, CMVSS approvals and VCA (UK Type Approval Authority) approvals. Advice can be provided on requirements and improvements, as well as to “worst-case” discussion support for necessary documentation and testing.

In addition to VCA approval, CSA Group is a Technical Service to RDW (Dutch Approval Authority) and can offer approval testing to TUV requirements.

Typical Applications

- Braking: Static, Dynamic, ABS (Type IIA & ECE R90)
- Steering performance EC/ECE
- External noise (ECE R51)
- Lighting & signalling
- Mechanical tests / coupling devices
- Vision
- Passive & general safety
- Vehicle tilt testing
