To purchase the Standard, visit us at www.shopcsa.ca

Who is affected?

Manufacturers of stand alone electric spin extractors and manufacturers of spin extractors incorporated in washing machines that have separate containers for washing and spin extraction.

What do you do?

1. This publication provides for new certification services that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to take advantage of the new certification services, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation* and we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file

number or master contract number (if assigned), and any other relevant documentation.

Approvals:

No existing approvals are affected by this Certification Informs, including approvals for spin extractors Certified to other standards.

Background and Rationale:

CSA Standards in the 60335-series consist of one "Part 1" (60335-1) and several Part 2 Standards (E60335-2-XX). Each Part 2 is for a more specific product type and works in conjunction with Part 1 by accepting the content of the clause without change, or by adding to, amending or omitting it. The latest edition of the Part 1 is CAN/CSAC22.2 No. 60335-1-11, which was announced December 5, 2012 in CSA Informs Ref No: I12-107, Appliances No. 21.

CAN/CSA-E60335-2-4:13 is an adoption with Canadian deviations of the identically titled IEC 60335-2-4 edition 6:2008.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://directories.csa-international.org/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
