

# CERTIFICATION Informs

An Urgent Bulletin from CSA Group

Ref No: I18-007

Drinking Water Products No. 50

Date: January 8, 2018

Existing Certification not affected

Apply any time to have your products evaluated

Announcing: Publication of CAN/CSA B483.1 (R2017) Drinking Water Treatment Systems

See Attachment 1 for affected Class Numbers.

To purchase the Standard, visit us at [www.shop.csa.ca](http://www.shop.csa.ca)

## Who is affected?

Manufacturers of drinking water treatment systems.

## What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation\*. If testing is needed, we will inform you of the samples required.

\*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

## Introduction:

Point-of-use and point-of-entry plumbed drinking water treatment systems and point-of-use non-plumbed drinking water systems intended to reduce or inactivate harmful substances that may be present in potable water.

## Background and Rationale:

CSA Group is adopting 2017 edition of CAN/CSA B483.1 standard as the new basis for certification of drinking water treatment systems. Effective immediately, all new applications and/or updates to currently certified products will be evaluated to 2017 edition of CAN/CSA B483.1.

## Major Revisions:

Added NSF/ANSI 372-2016 as reference to clause 2 and added requirement that drinking water treatment systems that convey or dispense water for human consumption shall not contain more than 0.25% weighted average lead content when evaluated in accordance with NSF/ANSI 372. CSA has determined that products currently listed are not affected by these revisions.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://www.csagroup.org/services/testing-and-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
