
Who is affected?
Manufacturers of Outdoor Cooking Specialty Gas Appliances

What do you do?
1. Contact CSA engineering staff for information concerning the changes and how they apply to you 2. Complete the attached CSA application for re-evaluation of your products if you decide to proceed 3. Return the application no later than 90 days prior to the effective date to your CSA engineer with appropriate supporting documentation*

*Technical information as well as company name, address, factory locations and CSA file number or master contract number (if assigned) when applying.

Need additional technical information?
Contact John Gorman by phone (216) 524-4990, fax (216) 642-3081 or e-mail john.gorman@csa-international.org

Approvers:
- American National Standards Institute, Inc.: August 23, 2003
- Inter-provincial Gas Advisory Council (IGAC): April 17, 2003.
- The revisions in this addenda supersede any corresponding provisions of ANSI Z21.89-2002•CSA 1.18-2002
- Identical to the coverage from the yellow review and comment text dated May 2002 distributed during that period.

Major Revisions:
1. Revise 1.10.2 to include a reference to the new 1.21.6.
2. Revise boxed text in 1.20.1 to be consistent with coverage in Z21.58.
3. Add 1.21.6 to provide appliance marking requirements for units which are intended to be connected to a fixed fuel piping system.

In the event your models do not comply with the effective standards, arrangements must be made to bring them into compliance.

In the event we do not receive a response as to your currently certified models, prior to the above applicable effective date(s), the certification of such models will be discontinued.
