Who is affected?

Manufacturers of gas-fired unvented room heaters.

What do you do?

1. The revisions outlined in this Certification Notice will not require testing, but will require updates to your Certificate(s) of Compliance & Report(s). CSA Group Service Delivery staff will contact you to address compliance with each revision as applicable to the product designs covered in your affected Certification Reports.
2. Please respond within thirty (30) days of receiving CSA Group's "Application for CSA Certification Services" and "Quotation" communication. You must respond no later than August 1, 2020 in order to guarantee the update to your certification is completed by January 1, 2021.

Approvals:

The American National Standards Institute, Inc. on June 7, 2019.

The revisions in this standard supersede any corresponding provisions of ANSI Z21.11.2-2016, and are identical to the coverage from the industry review and comment text from April 9, 2018.

Major Revisions:

See attachment 1

For questions specific to your file or products contact your CSA Group technical staff associate.
Go to https://www.csagroup.org/testing-certification/product-listing/ and enter your Master Contract # and the class numbers associated with this Notice to determine which of your products are affected.

For technical questions on this Certification Notice

by phone (216) 524-4990 x88125, fax 216-642-3081
or e-mail john.kory@csagroup.org

The standard edition or amendments announced in this Notice may be used for certification as of the date of issue of this Notice. The "Effective date" in this Notice is the date on which the current requirements, applicable to Certified products listed in the affected class numbers, expire and the standard edition or amendments announced in this Notice become the only requirements that may be used for certification.

In the event that currently certified products do not comply with the latest requirements outlined in this Notice after the "effective date", the certification of such models may be discontinued.

ATTACHMENT 1

Major Revisions

Clause(s)	Changes	File Review Required
1.1	The appliance type designation " Unvented decorative room heater" is no longer contained within the scope of the CSA/ANSI Z21.11.2 standard. Products previously identified as an unvented decorative room heater must now be identified as one of the following appliance types contained within the scope of the standard: a) Free-standing; b) Wall-mounted c) Unvented gas log or d) Unvented fireplace or insert All references to "decorative" appliances must be removed from the appliance installation and operating manuals as well as the appliance markings. CSA product listings will also be amended to reflect this change.	Yes
4.21.3p	A universal unvented room heater equipped with an automatic fuel gas selector device must now be marked as follows: "This appliance is equipped with an automatic selector device that allows it to operate with propane or natural gas."	Yes
4.21.10g	The marking required for all appliances equipped with a fire screen is amended to remove reference to decorative appliances as follows: "WARNING: The fire screen or guard designed for this unvented appliance must be installed prior to operation."	Yes
