Enter your Master Contract # and the class numbers associated with this Bulletin to determine which of your products are affected.

NEXT STEPS:

Already Certified:

This publication outlines certification revisions that do not affect your currently certified product designs.

If you have any questions or are looking for Certification:

Please contact your CSA Customer Care Manager, Rodger Redd, at Rodger.Redd@csagroup.org.

**TECHNICAL SUMMARY:****Overview of changes:**

This revision of the Standard includes:

- clarifications for the maximum load of a receptacle and minimum supply cord size for work lights and portable hand lights, and portable luminaires that are designed for use with a non-integral power supply;
- revision to the number of convenience receptacles allowed in a portable luminaire; and
- revision to the temperature test requirements for portable luminaires using only SBLED lamps.

Effect on Approvals:

This latest revision is available for use in product certifications from this date forward.

Details of Affected Class Numbers can be found in Table 1.
