

CERTIFICATION Notice

An Urgent Bulletin from CSA Group

Lighting Products No. 97

Effective Date: December 1, 2019

Date: July 23, 2018

Apply Before December 1, 2018

Announcing: Publication of New CSA Standard C22.2 No. 250.570-16 for Track Lighting

Class No: 3425 10, LUMINAIRES - Track Lighting Systems
3426 01, LUMINAIRES - Luminaire Fittings

To purchase the Standard, visit us at www.shop.csa.ca

Who is affected?

Manufacturers of track lighting systems, track luminaires, and related accessories; and extra-low-voltage suspended ceiling grid systems.

What do you do?

1. CSA Group Service Delivery staff will contact you to address compliance with each revision as applicable to the product designs covered in your affected Certification Reports. In addition to updates to your Certificate(s) of Compliance & Report(s), testing may be required to comply with these revisions.
2. Please respond within thirty (30) days of receiving CSA Group's "Application for CSA Certification Services" and "Quotation" communication. You must respond no later than December 1, 2018 in order to guarantee the

update to your certification is completed by December 1, 2019. If testing is needed, we will inform you of the samples required.

Approvals:

This announces a new standard CSA C22.2 No. 250.570-16 Track Lighting. Products related to track lighting which are certified to only CSA C22.2 No. 9.0-96 are subject to evaluation to the new requirements.

See Attachment 1 for more information regarding affected approvals.

Background and Rationale:

The first edition of standard CSA C22.2 No. 250.570-16 contains specific requirements for track lighting products and replaces any previous standards used for applicable requirements.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://www.csagroup.org/services/testing-and-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Notice to determine which of your products are affected.

For technical questions on this Certification Notice

Contact Avery Yearwood
by phone 416-747-4285, fax 416-747-4149
or e-mail Avery.Yearwood@csagroup.org

The standard edition or amendments announced in this Notice may be used for certification as of the date of issue of this Notice. The "Effective date" in this Notice is the date on which the current requirements, applicable to Certified products listed in the affected class numbers, expire and the standard edition or amendments announced in this Notice become the only requirements that may be used for certification.

In the event that currently certified products do not comply with the latest requirements outlined in this Notice after the "effective date", the certification of such models may be discontinued.

Visit us at www.csagroup.org where you can click on "Contact Us" for the online phone listing of our Offices and Partners.

ATTACHMENT 1

Approvals

Prior to the publication of CSA C22.2 No. 250.570-16 the certification of track lighting products in Canada was based on applicable requirements found in CSA C22.2 No. 9.0-96 General Requirements for Luminaires.

Those products certified to CSA C22.2 No. 9.0-96 only shall comply with new construction and test requirements.

The publication of CSA C22.2 No. 250.570-16 addresses the following major areas:

1. The Scope includes wall and ceiling-mounted track lighting systems, rated 347 V, 40 A max, incorporating incandescent, fluorescent, light emitting diodes (LED) and HID light sources, plug and cord-connected track systems, and extra-low-voltage suspended ceiling grid systems.
2. Construction requirements related to track lighting products, including polymeric materials, mounting means, electrical spacings, adaptors, canopies and other accessories.
3. New requirements related to general purpose receptacles.
