7021 01, PIPE AND PIPE FITTINGS - Mechanical Joints (Non-Transition Type)

Who is affected?

Manufacturers of asbestos cement pipe and pipe fittings.

What do you do?

1. The purpose of this Notice is to announce CSA Group's intention to withdraw its certification services to the following program:
Plumbing Products
2. The information outlined in this Certification Notice does impact the product designs covered in your affected Certification Report(s).
3. You must ensure that the CSA Mark is removed from products manufactured after the effective date of October 8, 2019.
4. If you would like to arrange for early termination of your certification, please contact our Client

Services Center at 1-866-797-4272. Please supply appropriate supporting documentation*.

* *Company name, address, factory locations and CSA file number or master contract number.*

Background and Rationale:

CSA Group would like to announce exiting of certification to CSA B127.1, CSA B127.2 and TIL MSE-53. CSA B127.1 was withdrawn in November 2018, CSA B127.2 was withdrawn in 2002. TIL MSE – 53 was created for injection moulded asbestos cement fittings, however its requirement were never adopted into a standard. In addition this, Canadian Government has announced ban of asbestos and products containing asbestos effective December 30, 2018, prohibiting the import, manufacture, sell, trade or use products containing asbestos. This notice would help in complying with this ban.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <https://www.csagroup.org/testing-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Notice to determine which of your products are affected.
