

# CERTIFICATION Informs

An Urgent Bulletin from CSA Group

Ref No: I18-151

Special Announcement – Withdrawn TILs

Date: November 30, 2018

Announcing: Withdrawal of the Technical Information Letters (TILs/ORDs) listed in Attachment 1

## **Who is affected?**

Manufacturers of products within the scope of the Technical Information Letters listed in Attachment 1.

## **Introduction:**

The purpose of this Inform is to announce CSA Group's intention to withdraw the Technical Information Letters (TILs) listed in Attachment 1.

## **Background and Rationale:**

"Technical Information Letters" (TILs) are CSA Groups' "Other Recognized Documents" (ORDs). As described by the Standards Council of Canada's (SCC's) website (<https://www.scc.ca/en/agl-ord>):

"An ORD is a document developed by a certification body, in the absence of a

recognized Canadian standard, in order to establish safety and performance criteria for a new product. The ORD is intended to provide Regulatory Authorities and industry associations with assurance that a level of safety or performance, which is equal to that of existing standards for similar functions, is being maintained. An ORD must be accepted by the applicable Regulatory Authority or appropriate industry association(s) in order to gain validity."

CSA Group has already withdrawn the TILs listed in this Informs, but is issuing this announcement for clarity that they no longer may be used. The relevant standards and other documents listed in Attachment 1 provides guidance to those wishing to locate relevant requirements for their products

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://www.csagroup.org/services/testing-and-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
