Announcing: Energy Efficiency Verification Service for Signage Displays according to CEC Appliance Efficiency Regulations

See Attachment 1 for affected Class Numbers.

## Who is affected?

Manufacturers of signage displays.

## What do you do?

1. This publication provides for new energy efficiency verification services, which are now available. Your currently verified product designs are not affected.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to initiate an energy efficiency verification project, please contact CSA technical staff to arrange for an evaluation of your product design. Please supply your CSA technical representative with appropriate supporting documentation\*. If testing is needed, we will inform you of the samples required.

\*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

## Introduction:

This Informs announces a new energy verification service to meet the California Energy Commission (CEC) CCR Title 20 Appliance Efficiency Regulations for Signage Displays which are now in effect.

CSA Group is accredited by the CEC to offer this service. For Signage Displays definition and regulatory requirements, please refer to the CEC website: <http://www.energy.ca.gov/appliances/>

## Background and Rationale:

See attachment 2
