

CERTIFICATION Informs

An Urgent Bulletin from CSA International

Ref No: I11-014

Wire and Cable No. 160

Date: February 16, 2011

New Service available as of today

Apply any time to have your products evaluated

Announcing: Publication of new CSA Standard CAN/CSA C22.2 No. 62275-10, Cable Management Systems
— Cable Ties for Electrical Installations

Class No: 4414 06, FITTINGS - Cable Management – Cable Ties for Electrical Installations
4414 86, FITTINGS - Cable Management – Cable Ties for Electrical Installations - Certified to US Standards

To purchase the Standard, visit us at www.shopcsa.ca

Who is affected?

Manufacturers of metallic, non-metallic and composite cable ties and their associated fixing devices.

What do you do?

1. This publication provides for new certification services that do not affect your currently certified product designs.
2. Please contact CSA engineering staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to take advantage of the new certification services, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation* and we will inform you of the samples required.

*Technical information as well as company name, address, factory locations and CSA file number or master contract number (if assigned) when applying.

Approvals:

Customers who wish to take advantage of this new certification program may make application at any time.

Background and Rationale:

This is the harmonized ANCE, CSA, and UL standard for Cable Management Systems – Cable Ties for Electrical Installations. It is the first edition of NMX-J-623-ANCE, the first edition of CAN/CSA-C22.2 No. 62275, and the first edition of UL 62275. This edition of CAN/CSA-C22.2 No. 62275 supersedes the requirements of CSA Standard C22.2 No. 18.5, published in 2002, for products covered in this standard, as indicated in the scope of this standard. This standard is an adoption, with national differences, of the identically titled CEI/IEC (Commission Electrotechnique internationale/International Electrotechnical Commission) Standard IEC 62275 (first edition, 2006-10).

For questions specific to your file or products contact your regular CSA International engineering staff.

Go to <http://directories.csa-international.org/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
