New Service available as of today

Apply any time to have your products evaluated

Announcing: Publication of CSA Standard C22.2 No. 267-10 Armoured segmented power and communication assemblies (ASPCA)

**Class No: 5811 02, CABLE – Armoured ASPCA**

To purchase the Standard, visit us at [www.shopcsa.ca](http://www.shopcsa.ca)

### Who is affected?

Manufacturers of Armoured segmented power and communication assemblies (ASPCA).

### What do you do?

1. This publication provides for new certification services that do not affect your currently certified product designs.
2. Please contact CSA engineering staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to take advantage of the new certification services, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation\* and we will inform you of the samples required.

\*Technical information as well as company name, address, factory locations and CSA file number or master contract number (if assigned) when applying.

### Approvals:

Customers who wish to obtain CSA certification to the new Armoured segmented power and communication assemblies (ASPCA) may make application at any time.

### Background and Rationale:

CSA Standard C22.2 No. 267-10, Armoured segmented power and communication assemblies (ASPCA), was developed by the Integrated committee on Wire and Cable at the request of industry. This is the first edition of this said standard and is a new certification program for CSA International.

For questions specific to your file or products contact your regular CSA International engineering staff.

Go to <http://directories.csa-international.org/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
