Apply any time to have your products evaluated

Announcing: Publication of standard CSA C22.2 No. 18.4 / UL2239 Second Edition, Hardware for the Support of Conduit, Tubing and Cable

See Attachment 1 for affected Class Numbers.

To purchase the Standard, visit us at www.shop.csa.ca

Who is affected?

Manufacturers of hardware for the support of conduit, tubing and cable

What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation*. If

testing is needed, we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

Approvals:

This announces the publication of the standard CSA C22.2 No. 18.4 / UL2239 Hardware for the Support of Conduit, Tubing and Cable. This edition supersedes the previous edition issued in 2004 and update No. 1 (2006) and update No. 2 (2009).

Major Revisions:

This edition includes minor editorial changes and expansion of scope to include protector bushings. See attachment 2 below for list of changes.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <http://www.csagroup.org/us/en/services/testing-and-certification/certified-product-listing> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
