What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation*. If testing is needed, we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

Introduction:

This announces the publication of the bi-national standard of CSA C22.2 No. 291-14/UL 486F updates 1 & 2, Bare and covered ferrules. The revisions include addition of metric conductor sizes, additional definition of covered ferrules, and clarifications to flammability requirements.

Currently certified bare and covered ferrules, are not required to resubmit for further testing however, manufactures wishing approval to the new requirements may apply at any time.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <https://www.csagroup.org/testing-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
