What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Client Services Centre at 1-866-797-4272. Please supply appropriate supporting documentation*. If testing is needed, we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

Introduction:

This announces publication of the Tri-national standard for wire connectors. It is the sixth edition of CAN/CSA-C22.2 No. 65, the fourth edition of NMX-J-543-ANCE, and the third edition of UL 486A-486B. This edition supersedes the previous edition published on January 11, 2013. It incorporates various editorial changes as follows:

- Scope change to refer to CSA C22.2 No. 291 for ferrules.
- Increase voltage to 2000 V.
- Representative testing with range of wire stranding.
- Use of busbar during Static Heating Test.
- Time stabilization clarification.
- Additional editorial revisions to improve the clarity of the document.

Currently certified wire connectors, are not required to resubmit for further testing however, manufactures wishing approval to the new requirements may apply at any time.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <https://www.csagroup.org/testing-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
