To purchase the Standard, visit us at store.csagroup.org

Who is affected?

Manufacturers of general-use snap switches.

What do you do?

1. This publication outlines certification revisions that do not affect your currently certified product designs.
2. Please contact CSA technical staff if you have questions or need information concerning this publication and how it applies to you.
3. If you would like to arrange for an evaluation of new products to the revisions, initiate a certification project by contacting our Post Certification Services team at Post_Certification_Notice_Update@csagroup.org. Please supply appropriate supporting documentation*. If testing is needed, we will inform you of the samples required.

*which includes technical information, company name, address, factory locations and CSA file number or master contract number (if assigned), and any other relevant documentation.

Approvals:

This informs announces update No.1 for CSA standard C22.2 No. 111-18. This is the harmonized ANCE, CSA Group, and UL standard for General-Use Snap Switches. It is the fifth edition of CAN/CSA-C22.2 No. 111, the first edition of NMX-J-005-ANCE, and the fourteenth edition of UL 20. This standard update was reviewed by the CSA Integrated Committee on Wiring Devices for Household and General Use and has been formally approved by the CSA Technical Committee.

Background and Rationale:

Update No.1 provides mostly clerical changes incorporating editorial modifications and additions. This update also allows manufacturers Markings and instructions that are alternatively permitted on a stuffer sheet, information sheet etc. to be provided via a manufacturer's web site through a URL or QRcode on the switch. Currently certified General-use switches are not required to resubmit however manufacturers wishing to take advantage of these new requirements may submit a certification request at any time.

For questions specific to your file or products contact your CSA Group technical staff associate.

Go to <https://www.csagroup.org/testing-certification/product-listing/> and enter your Master Contract # and the class numbers associated with this Informs to view your certified products.
